

Resist the US War Machine!

In Puerto Rico, 50,000 people demonstrate to stop the US military buildup. The armed independence organizations bomb military recruitment offices. The US refuses to give up its colony of Puerto Rico: they are turning the island into a military outpost for the invasion of Central America and the Caribbean, and planning to strip-mine 40,000 acres for strategic military minerals. Resistance is building to US militarization and to US colonial control of Puerto Rico — on the island and here in the US. WE MUST HELP BUILD THIS RESISTANCE AMONG NORTH AMERICANS AS WELL!
